Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114 was filed in this application after a decision by the Board of Patent Appeals and Interferences, but before the filing of a Notice of Appeal to the Court of Appeals for the Federal Circuit or the commencement of a civil action. Since this application is eligible for continued examination under 37 CFR 1.114 and the fee set forth in 37 CFR 1.17(e) has been timely paid, the appeal has been withdrawn pursuant to 37 CFR 1.114 and prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on October 30, 2003 has been entered.
2. Upon careful reconsideration, the indicated allowability of claim 3 is withdrawn in view of the newly discovered reference(s) to Berlin et al. Rejections based on the newly cited reference(s) follow. Any inconvenience caused by this action is regretted.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 3724

4. Claims 1 and 3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carll, pn 2,313,801, in view of Berlin, pn 3,048,069.

Carll discloses a die cutter apparatus with almost every structural limitation of the claimed invention but lacks a cavity in the support member (claim 1) or the top board (claim 3). However, the Examiner takes Official notice that such cavities are old and well known in the art and provide various known benefits including providing clearance for additional tooling (e.g., a stripper assembly) or to provide clearance for a workpiece to be cut. Berlin discloses one example of a support member/top board with such a cavity configuration. Therefore, it would have been obvious to one having ordinary skill in the art to provide a cavity in the support member/top board of Carll for the well known benefits including those described above.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark Dexter whose telephone number is 703-308-1404. The examiner can normally be reached during normal business hours on Monday, Tuesday, Thursday and Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on 703-308-1082.
